DECLARATION OF COMPLIANCE

California Proposition 65

In accordance with nVent's ESG commitments and California's Safe Drinking Water and Toxic Enforcement Act of 1986 (or "Proposition 65"), we continuously strive to deliver products and services that reduce environmental and health and safety impacts when used for their intended purpose and in accordance with the performance conditions stated in our product documentation.

nVent declares to the best of our knowledge, based on supplier responses or our own due diligence, that any of our **Electrical Connections** (formerly known as Electrical & Fastening Solutions) products that contain a chemical on the Proposition 65 List are managed in accordance with the warning requirements of California Proposition 65. Such products are further set out in the table below. The Electrical Connections brands that are in-scope for this declaration are **nVent CADDY, ERIFLEX, ERICO & LENTON**.

Because we know regulations, standards and available information continues to evolve, nVent closely monitors, investigates, communicates, and exercises due diligence within our supply chain to ensure we continue to meet our obligations under California Proposition 65. In the event that nVent becomes aware of the presence of any Proposition 65 List chemical, whether through investigation, testing or notification from a supplier, we will promptly take steps to amend labels and/or warnings and update the attached table, if necessary, in accordance with Proposition 65 requirements.

Regards,

Tom Hurney
Director, Enterprise Product Compliance & Approvals

Notes:

- **Audit Instructions**:
  - If the **product family**(s) you are inquiring about **<u>are not listed</u> in the first column (Product Family) in the table below**, then that product family **does not contain any substance of concern**; therefore, it is considered **non-declarable**.
  - If the **product family**(s) you are inquiring about **<u>are listed</u> in the first column (Product Family) in the table below**, then that product family **does contain substance(s) of concern**; therefore, it is considered **declarable.**
- This online **Rev C** declaration is **the latest revision we have available**. The table will be updated and a newer revision will be created as new information warrants.
- If you have any further **questions** about this declaration, **please email <u>Nichole.Knight@nVent.com</u>**
