DECLARATION OF COMPLIANCE

Toxic Substances Control Act (TSCA)

In accordance with nVent's ESG commitments and the Toxic Substances Control Act (TSCA), we continuously strive to deliver products and services that reduce environmental or health and safety impacts when used for their intended purpose and in accordance with the performance conditions stated in our product documentation.

Under the TSCA, the Environmental Protection Agency (EPA) issued final rules on January 6, 2021, that prohibit the manufacture (including import), processing and distribution in commerce of certain persistent, bioaccumulative and toxic (PBT) chemicals and/or PBT-containing products. The relevant PBT chemicals are:

- Decabromodiphenyl ether (DecaBDE)
- Phenol, isopropylated phosphate (3:1) (PIP (3:1))
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBD)
- Pentachlorothiophenol (PCTP)

nVent declares to the best of our knowledge, based on supplier responses or our own due diligence, that our **Electrical Connections** (formerly known as Electrical & Fastening Solutions) products are manufactured in compliance with the latest version of the TSCA, and do not contain any of the five PBT chemicals. Product exceptions that do contain any of the five PBT chemicals, when discovered, will be listed in the below table along with the chemical details, and nVent will work with its supply chain to eliminate these chemicals as soon as possible. The Electrical Connections brands that are in-scope for this declaration are **nVent CADDY, ERIFLEX, ERICO and LENTON**.

Because we know acts, standards and available information continues to evolve, nVent closely monitors, investigates, communicates, and exercises due diligence within our supply chain to ensure we continue to meet our obligations under the Toxic Substances Control Act (TSCA).

Regards,

Tom Hurney
Director, Enterprise Product Compliance & Approvals

Notes:

- **Audit Instructions**:
  - If the part number(s) you are inquiring about **<u>are not listed</u> in the last column (comments) in the table below**, then that part **<u>does not contain</u> PBT chemicals of concern** and is considered **compliant**.
- This online **Rev E** declaration is **the latest revision we have available**. The above table will be updated and a newer revision will be created as new information warrants.
- If you have any further **questions** about this declaration, **please email Nichole.Knight@nVent.com**

Product Family	Product Name	TSCA Chemical	Comments
			No products have been identified at this time; therefore, all products are considered compliant
