SIEMENS

April 24, 2024

To whom it may concern,

In regard to sub feed lug kits ECLK2225 and ECLK3225, Siemens has introduced two new sub feed lug kits:

ECSK2225 – Two pole 150-225A Sub feed Lug Kit, requires 4 spaces
ECSK3225 – Three pole 150-225A Sub feed Lug Kit, requires 6 spaces

ECSK2225 and ECSK3225 sub feed lug kits are compatible with up to 225A Load Centers type ES, PL, SN, PN, and ultimate listed in the table below.

When the ECLK2225 or ECLK3225 are listed on the wiring diagram label inside the enclosure, use the ECSK2225 or the ECSK3225 respectively.

Kind regards,
Residential Product Management
