Floor Boxes for Structural Concrete Floors

Round non-metallic floor box offers an economical solution for electrical power or a combination of power and voice/data applications. Designed for slab-on-grade installation. Quick and easy installation is assured using a push in place leveling system.

- Recessed receptacle minimizes plug protrusion, allowing furniture to be located over the plug
- Pre-assembled flange, cover and leveling ring for quick installation
- Removable neoprene gaskets allow for independent use of either side of the receptacle with the cover closed
- Parallel PVC hubs for 1 inch and inch conduit

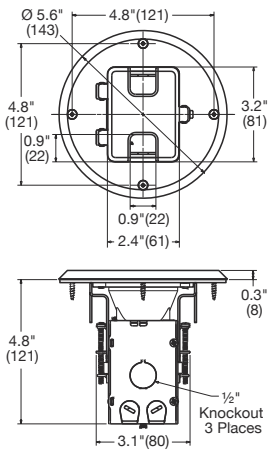

Floor Boxes For Concrete Floors
