IWISS HX - 50B Cable Lug Crimping Tools

This crimping tools is used for non-welding and standard electrical connection. The mould of the crimping dies are made of SCM-40 hardest tool steel. It is with the characteristics of long life, accurate bore diameter and good crimping effect.

- Model: HX-50B
- Range of Application: BS Standard Type Terminals
- Capacity: 6.0-50mm^2
- Length:390mm
- Weight:1.3KG

HX–50B Instruction

1.Cut cable with the cable cutter included in the package to an appropriate length.

2.Before notching, the cable must be stripped according to the insertion length (+10% due to change in length of the crimping sleeve.)

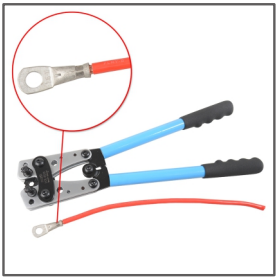

3.Push the bottom and roll the jaw to adjust the crimp jaws accordingly to lug size.

6mm²=AWG 9 10mm²=AWG 7
35mm²=AWG 2 25mm²=AWG 3
50mm²=AWG 0

4.Insert the cable into the cable lug or connector to its full insertion length. Crimp the cable lug or connector with the correct jaws.

5.Finished with a perfect crimp.
