IRWIN®

SPEED POWER HAMMER™

Powers Through Rebar

With 125 years of experience in drill bit manufacturing, product innovation, design, and development, and a full range of products available, IRWIN is serious about drilling. Rebar-reinforced concrete is found on most jobsites, and hitting rebar is a common obstacle in construction work. IRWIN now offers a solution for drilling through concrete with rebar – the IRWIN SpeedHammer POWER Masonry Bit.

The SpeedHammer POWER bit has a patent-pending high performance tip that's manufactured with 2X more carbide*. It easily powers through 2X more concrete and rebar than traditional masonry bits. When long life and durability are crucial, depend on the IRWIN SpeedHammer POWER Masonry Bit.

2X Longer Life**

Both SpeedHammer POWER and SpeedHammer PLUS masonry bits are compatible with SDS-plus® and Hilti® style drills. SDS-plus® is a registered trademark of Robert Bosch GmbH. Hilti® is a registered trademark of Hilti® Corp.

* Compared to IRWIN Speedhammer Plus masonry bits
** than traditional masonry bits

Masonry Drill Bits

SPEED POWER HAMMER™

Maximized Flute
- Faster, more efficient dust removal
- Extended life

Premium Steel
- Improved core strength for maximum durability
- Extended life

Blue Power Ring
- Easier identification in the toolbox

2X More Carbide in Tip
- 2X longer drilling life in rebar-reinforced concrete
- Optimized for cutting through rebar at high speeds

Optimal Groove Design
- Minimizes friction for increased speed and longer life

IRWIN®

SPEED PLUS HAMMER™

Patented Flute Design

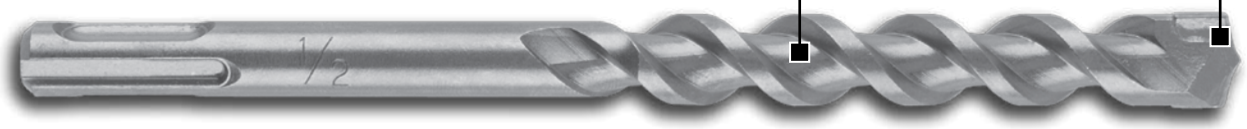

- Rapid dust removal
- Reduces clogging
- Increases penetration speed

Patented Carbide Tip

- Controlled self centering when starting hole
- Aggressive angles for faster drilling

Short Drill Head

- Forces drilling dust into flute
