SDS-plus® Bulldog™ Xtreme Rotary Hammer Drill Bits

For rotary hammer drills

Outstanding Lifetime in Rebar

- Four-cutter full head carbide design - delivers up to 4X life in concrete with rebar (vs. Hawera® SDS-plus® 2-cutter concrete drill bit)
- Four-cutter head - provides four cutting edges to hit rebar, to help prevent the bit from getting stuck
- Full head carbide - improves strength of the bit tip, reducing breakage upon hitting rebar
- Centering tip - ideal for drilling anchoring holes to enhance the precision of hole placement
- Integrated wear mark - indicates when the bit has been fully worn
- Variable (4-2-2) flute design - aggressively pulls dust away from hole to reduce heat build up, providing more holes per battery charge (compared to standard four-flute design)
- Bosch-made carbide - promotes quality material for increased durability
- SDS-plus® bit design – for use with SDS-plus® rotary hammers

1/2 In. x 10 In. x 12 In. SDS-plus® Bulldog™ Xtreme Carbide Rotary Hammer Drill Bit

Model number HCFC2084	
Pack quantity	1
Details	
Diameter (D) Inch	1/2
Working length (L1) Inch	10
Total length (L2) Inch	12
