HOLE SAWS

Bi-Metal Hole Saws

- Cut through steel, tin, aluminum, fiberglass, wood and plastic
- Deep 1-5/8" (41 3 mm) cutting depth allows for cutting through 2" x 4" wood studs
- Extra-tough bi-metal blade – we use the highest grade of tool steel to outlast competitor's blades That beats premature saw replacement and saves you money
- Steam oxide finish – no paint to gum up and slow cutting - The saw runs cooler for longer life and better performance
- Extra-thick backplate minimizes vibration for smoother, easier, less tiring cutting
- Made in USA with Global Components
